

# MILAN CHEEKS

Founder • Systems  
Architect • AI-Native  
Builder

## ONE-LINE POSITIONING

**Milan Cheeks builds AI-native platforms that turn human intent into execution – shipping future-defining systems before they become mainstream.**

# WHY NOW

AI is moving  
off  
centralized  
data centers  
and into  
people's  
hands.

Milan is already building the infrastructure for that shift — across software, devices, and real-world systems — with live products, active users, and measurable scale.

# WHAT HE BUILDS

## FLAGSHIP PRODUCTS

### Manifest Anything

AI-assisted game engine that builds playable games from prompts. (Live demo)

<https://manifestanything.ai>

### SELF OS

AI-native mobile operating system where phones act as compute nodes powering decentralized AI workloads.  
(Beta)

<https://useselfos.com>

## Harmony

Orchestration layer  
coordinating AI  
agents and workflows  
across devices.

<https://talktoharmony.com>

## Resonatia

Decentralized AI  
model & compute  
network optimized for  
edge devices; ~85%  
cheaper than  
traditional data-center  
approaches, spanning  
~15,000 nodes.

<https://resonatia.io>

Exploring next-generation human–AI interfaces, including  
a proprietary BCI (Brain Controlled Interface) input layer  
(Cerebral OS)

**Founder & CEO of SELF Labs Inc.**

Early large-scale humanoid robotics automation agreements (Fintech News coverage) [https://www.fintechnews.org/\\_/worlds-  
biggest-deal-for-humanoid-robots-inked/](https://www.fintechnews.org/_/worlds-biggest-deal-for-humanoid-robots-inked/)

# SPEAKING & PARTNERSHIPS

Available for:

## **Keynotes & Panels**

AI, infrastructure, creation,  
future of work

## **Founder-Led Brand Partnerships**

## **Advisory & Strategic Collaborations**

## **Long-Form Interviews & Podcasts**

**FIT**

Best aligned with partners focused on:

**AI • Gaming • Developer Tools •  
Infrastructure • Hardware •  
Education • Future-of-Work  
Platforms**
